### PROFILE

---

I am a web developer with over 4 years of hands-on experience in building dynamic and complex web applications. My skill set includes PHP (OOP), MySQLi, Laravel, CodeIgniter, JavaScript (ES6), ReactJS, Vue.js, Livewire, Filament, jQuery, and Ajax, along with strong frontend expertise in HTML and CSS. I have successfully delivered multiple high-level projects, including government projects, demonstrating my ability to handle complex and scalable solutions. I am also experienced in Docker, WHM, and cPanel, which enhances my server and deployment capabilities. With a solid foundation in both backend and frontend technologies, I am committed to delivering secure, efficient, and user-friendly web solutions.

### PROFESSIONAL EXPERIENCE

---

#### Sr. Software Engineer

05/2025 – Present

*Finva Soft Limited*

Dhaka

Maintain and enhance a Hospital Management Software built with CodeIgniter 3, ensuring smooth performance and new feature integration. Develop and manage a Laravel-based multi-vendor eCommerce platform. Build modern web interfaces using Laravel, ReactJS, and Vue.js. Follow a self-driven, problem-solving approach with clean, scalable code. Focused on delivering reliable and efficient web solutions.

#### Software Engineer

10/2022 – 04/2025

*Copotronic Info System Limited*

Dhaka

Worked on multiple government and private sector projects, including a School Management System, Attendance Tracking Solution, Accounting Management System, Online Course Selling Platform, and a Florida Lottery Counting System. Developed and maintained these systems using Laravel, PHP, and CodeIgniter frameworks. Ensured secure, efficient, and scalable solutions for real-world operational needs. Focused on backend logic, data management, and user-friendly interfaces. Delivered projects with a strong problem-solving mindset and a commitment to clean, maintainable code.

#### Web Developer

01/2019 – 08/2019

*Satt It*

Rajshahi

Developed and maintained web applications using PHP and Laravel. Built RESTful APIs, handled complex logic, and ensured secure authentication. Integrated third-party services and optimized performance. Collaborated with frontend frameworks like Vue.js and ReactJS. Focused on clean, scalable, and efficient code.

### PROJECTS

---

#### Account Software

<https://accounts.bise-ctg.gov.bd>, <https://accounts.comillaboard.gov.bd>

Laravel, MySQL, Jquery, Html, CSS

This accounting software helps education boards and institutions like Ispahani School & College manage user payments and services with ease. It ensures a smooth experience for both users and administrators.

### **Institute Management Software for School and College**

*Codeigniter, MySQL, JQuery, Html, CSS*

Institute Management Software designed for schools and colleges to simplify daily operations. It helps manage students, staff, payments, and academic activities efficiently.

### **Pension Software**

*<https://pension.comillaboard.gov.bd>*

Laravel, MySQL, Rest API for APP

The Pension Software for Comilla Board streamlines the management of pension processes for retired staff. It ensures accurate calculations, easy tracking, and timely disbursement of pension benefits.

### **Work with Education Board**

1. <https://onlinetc.comillaboard.gov.bd>
2. <https://sscadmitcard.comillaboard.gov.bd>
3. <https://nameage.comillaboard.gov.bd>
4. Others.

### **MFS money transfer (Bkash,Nagad,Rocket)**

*<https://transfer.rajtechteam.com>*

Laravel, MySQL, Inertia, VueJs

The software supports MFS money transfers (bKash, Nagad, and Rocket). It ensures fast, secure, and convenient transactions for users.

### **Florida Lottery Counting System**

*<https://store.salexcart.com>*

Laravel, MySQL

The Florida Lottery Counting System is designed to count both tickets and vault rolls for Lotto operations. It ensures accurate tracking, secure management, real-time reporting of lottery inventory, and maintains store-wise balance records.

### **Hospital Management System**

*<https://demo.meditoolz.com>*

Codeigniter, MySQL

The Hospital Management System streamlines patient care, staff management, and medical records. It improves hospital operations by integrating appointments, billing, and inventory in one platform.

### **Meal Management System (Mase Meal)**

*<https://meal.rajtechteam.com>*

Laravel, ReactJs, Redux, Axios, Api, MySQL, ES6.

Hostel Meal Management system simplifies meal planning and distribution for students. It helps track attendance, manage payments, and ensure timely meal service.

### **Online Job Solution.**

*<https://job.rajtechteam.com>*

PHP, MySQL

An online job solution platform offers job listings, online model tests, and a comprehensive question bank. It enables user ability testing with detailed result analysis to help candidates prepare for both government and private sector jobs.

## Application System Abroad University (China Company)

<https://expxian.xyz>

Laravel, ReactJs, Redux, Axios, Api, MySQL, ES6.

The Application System for Abroad Universities, developed for a China-based company, streamlines the student admission process. It manages applications, document submissions, interview scheduling, and status tracking for international university enrollments.

## Simple Blog

<https://farmer.rajtechteam.com>

Laravel, MySQL, Livewire, Filament

## Lost and get

Laravel, MySQL

The Lost and Found system helps users report lost or found items quickly and easily. It connects people by matching reports and assisting in the recovery of lost belongings.

## EDUCATION

---

### MSS (Economics)
